Full-stack software engineer over two years of operational leadership in high-volume, compliance-driven data workflows. Skilled in architecting type-safe, responsive web applications using Next.js, TypeScript, React, Node.js, and MongoDB. Proven track record in designing secure authentication layers, building RESTful APIs, and implementing clean component design systems with Tailwind CSS.

WORK EXPERIENCE

Oct. 2023 – Jan. 2026
Remote

Project Associate
Quantanite

- Managed high-volume data processing and moderation, upholding strict compliance, security, and data integrity standards.
- Streamlined workflows through rigorous documentation, proactive reporting, and efficient root-cause issue resolution.
- Ensured operational excellence and confidentiality through collaborative, cross-functional problem-solving.

Jan. 2021 – Mar. 2022
Savar, Dhaka

Daffodil International University
Lab Prefect (Algorithm & OOP)

- Resolving student issues
- Taking Viva
- Assessing student lab performance
  Course instructor grading assistance

EDUCATION

2019 - 2023

Bachelor of Computer Science Engineering — ***GGPA: 3.86***
Daffodil International University

2019

Higher Secondary School Certificate (HSC) — ***GPA: 3.25***
Collegex college

2017

Secondary School Certificate (SSC) — ***GPA: 4.68***
Schoolex School

SKILLS

Languages: HTML5 | Tailwind CSS | TypeScript | JavaScript (ES6+) | Python

Frontend: Next.js (App Router | Server Actions | SSR), React | Shadcn UI | DaisyUI | Context API

Backend & APIs: Node.js | Express.js | RESTful API Design | BetterAuth

Databases & ORM: MongoDB | Mongoose ODM | MySQL

CERTIFICATES

2019 **Certificate of Dhaka Regional ICPC 2020 Preliminary Round**
ICPC - International Collegiate

2021 **International Phygital Education Summit -iPES 2021**
Daffodil International University

PROJECTS

BazarDor — Daily Commodity Price & Market Variance Platform

Next.js, React, TypeScript, Tailwind CSS, BetterAuth, MongoDB

- Architected a full-stack market transparency platform tracking real-time commodity fluctuations and price histories across municipal markets.
- Designed a mobile-first, localized responsive interface using Next.js Server Components and Tailwind CSS to ensure low-bandwidth accessibility.
- Designed a localized Bengali interface with Next.js dynamic routing and server-side rendering for improved SEO and low-latency mobile loading.

Github: *https://github.com/abdul-wahid789/bazar-dor*

FitLog — Modular Workout & Progression Tracker

React, Next.js, TypeScript, Tailwind CSS, Custom React Hooks, Local Storage

- Developed an offline-capable fitness tracking web application for structuring workout splits, logging sets, and monitoring volume progression.
- Built custom state-synchronization hooks with local storage persistence, eliminating runtime layout shifts and hydration mismatches.
- Optimized mobile input ergonomics with touch-friendly controls, allowing rapid set/rep logging during active training sessions.

Github: *https://github.com/abdul-wahid789/fit-log*

Movie Explorer — Cinema & TV Discovery Platform

React, JavaScript (ES6+), Tailwind CSS, DaisyUI, TVMaze REST API

- Built a responsive media discovery web app integrating the TVMaze REST API for querying television schedules, genres, and cast metadata.
- Implemented a search input debouncer to eliminate redundant network traffic and avoid third-party API rate limits.
- Sanitized dynamic HTML summary strings and built defensive image fallback pipelines for missing media posters.
